Proposed Legislation

- [1] **SIPO heard the opinions and suggestions on the Draft Regulations on Service Inventions (Draft for Review)**

[State Intellectual Property Office]

...On December 2, the State Intellectual Property Office (SIPO) heard the opinions and suggestions from relevant representatives of entities on the Draft Regulations on Service Inventions (Draft for Review). It is learned that the draft had 44 articles under seven chapters. The General Provisions provided for legislation purpose, supervision and management authorities and their duties, applicable scope and geographical range, definition of inventor, obligation of entities to establish a sound intellectual property management system etc. Other chapters provided for the ownership of invention, invention reports and applications for intellectual property rights, awards and remuneration of service inventors, use and application of intellectual property rights of service invention, supervision and legal responsibilities etc.

Adopted Legislation

[1] State Council General Office distributes the Action Plan for Thorough Implementation of the National Intellectual Property Strategy (2014-2020)

[Central People's Government]

...The Notice of the State Council General Office on Distribution of Action Plan for Thorough Implementation of the National Intellectual Property Strategy (2014-2020) of State Intellectual Property Office etc. Guo Ban Fa [2014] No. 64) was announced on Dec 19, 2014. In the Action Plan for Thorough Implementation of the National Intellectual Property Strategy (2014-2020), main targets concerning the implementation of the intellectual property strategy in 2014-2015 were set out, and the following actions were specified: (i) facilitation of IP creation and utilization in support of industry restructuring and upgrade; (ii) reinforcement of IP protection to improve market environment; (iii) enhancement of IP management to increase management efficiency; (iv) expansion of international IP cooperation to enhance international competitiveness. The Plan also calls for efforts to push forward IP and copyright legislation and the amendment of related supporting regulations, establish and improve long-term IP protection mechanisms, and tighten up on infringement penalties; effectively ensure the quality of legislations for heritage, traditional knowledge, folklore and geographical indications at the most appropriate time; research and amend related laws and regulations such as the Act against Unfair Competition, Customs Regulations for Intellectual Property Protection and the New Plant Species Protection Regulations; and formulate normative documents to prevent abuse of intellectual property rights.
